

Lay It Out

Resources

Old unneeded keyboard(s) with all keys removed

Instructions

Young people must correctly replace all of the keys in the correct place on the keyboard as quickly as possible. The person who manages to complete it in the quickest time wins a prize.

Variations

You may wish to leave all of the symbol keys attached to make it easier.

If you do not have old keyboards, you could use a blank template like the one on the next page.
